

## **JOB POSTING**

### **Certified Arborist or Urban Forester, Ontario Full-time Permanent, Junior or Intermediate Level**

**Start Date: Spring 2023**

**Natural Resource Solutions Inc. (NRSI)** is proud to provide high quality and cost-effective natural environment consulting solutions to our clients across Canada. We are a highly respected niche biological consulting firm with offices in Waterloo, Ontario and Calgary, Alberta. Our team of skilled ecologists provide expertise in the identification and management of significant and sensitive natural species and their habitats.

#### **Why Us?**

At NRSI we value our people and strive to provide a healthy work-life balance and a safe work environment. We offer a competitive hourly wage, annual profit sharing, a health and dental benefit program, RRSP contribution matching, Professional Development, field equipment allowance, and the opportunity to work with other highly experienced staff. Work-from-home and other flexible scheduling arrangements can be made.

#### **Your Contribution to NRSI**

NRSI is looking for a qualified individual with primary expertise in tree and forest inventories and health assessments to join our growing team. The successful applicant will be based out of our Waterloo office and expected to regularly contribute to both field- and office-based tasks.

#### **Your Education & Certifications:**

- A post-secondary degree or diploma.
- Certified Arborist with the International Society of Arboriculture OR a Registered Professional Forester with the Ontario Professional Foresters Association (Full Member).

#### **Your Field Skills:**

- Experienced in completing tree and forest inventories & health assessments in rural and/or urban settings.
- Proficient in the identification of trees found in rural and urban Ontario.
- Willing & able to travel for regular multi-day field surveys, sometimes in remote locations, under inclement weather, in a variety of environmental conditions, or for long hours.

#### **Additional Requirements:**

- Demonstrated experience in preparing Arborist Reports and Tree Preservation Plans.
- A desire and demonstrated ability to work both independently and collaboratively in a team.
- Demonstrated accuracy and attention to detail in all aspects of work.
- Committed to continual improvement of technical abilities.

#### **Assets:**

- Experience surveying for herpetofauna, birds, mammals, and insects, and/or conducting vegetation inventories and delineating vegetation communities using standard survey protocols.
- Certifications in Ecological Land Classification (ELC) and/or the Ontario Wetland Evaluation System (OWES).
