## Forest Ecosystems Protection Technician

Ministry of Environment  
Permanent Full-Time – Prince Albert, SK;  
Meadow Lake, SK.

Explore  
your  
future

The Saskatchewan [Ministry of Environment](#) has five **Forest Ecosystems Protection Technician** opportunities in the [Forest Service](#) Branch, located in Prince Albert and Meadow Lake.

As the Forest Ecosystems Protection Technician, you will:

- Work with a team of operations staff responsible for regulating forest industry operations and ensuring compliance on Crown Forest lands;
- Under the direction of the Area Forester review and approve of forest industry operating plans to authorize the harvest of forest products;
- Carry out compliance assurance within the Prince Albert Area including field investigations and responses;
- Participate in public consultations of forest management with stakeholders, First Nations and Métis communities, agencies, media, and the public;
- Participate in the development of policy and support senior ministry staff on forest management and policy issues related to operations and operational planning; and
- Work with other resource management specialists to develop solutions aligned with the Ministry's ecosystem management principles.

Typically, the competencies required for this position would be obtained through the completion of a forestry technician program, a forestry degree program or allied science degree program combined with experience with forest operations including operational planning, harvesting, road construction and reclamation, water crossing installation and reclamation, boreal forest silviculture.

**Consideration will be given to candidates graduating in April 2025.**

**The successful candidate must possess a valid driver's license and be eligible to obtain membership in the Association of Saskatchewan Forestry Professional within three (3) years of commencement.**
