

Operations Planning Forester
Interfor
Elk Lake, Ontario

When you join our team as an Operations Planning Forester, reporting to the General Manager Forestry, you will work within a professional team leading the short and long-term operational planning and support its sustainable implementation.

What You'll Do:

- Lead the operational planning program for the Elk Lake wood supply area
- Monitor weekly contractor production vs. annual operating budgets and update forecasts
- Assist the Elk Lake Woodlands team with implementation of a fluid and sustainable harvest and delivery plan
- Assist the Woodlands Manager in developing and implementing annual operating budgets
- Coordinate with assistance from the Elk Lake Woodlands team the implementation of their Health and Safety Program and Environmental Management System (Safe Workplace Ontario / Sustainable Forestry Initiative / ISO 140001 / Forest Stewardship Council)
- Conduct inspections and maintain the Forest Operations Information Program (FOIP)
- All other duties as assigned to support the implementation of forest management activities for the Elk Lake Woodlands.

What You Offer:

- Recognized University Degree in the Field of Forestry / Environmental Management
- Have acquired a minimum of 5 years of experience related to the aspects of Forest Management
- Planning, and implementation of Harvesting activities.
- Be experienced in the use of Microsoft Office, ArcMap GIS, GPS technology
- Required to work outdoors in a variety of weather and terrain conditions
- Ontario Driver's License in good standing
- Registered Professional Forester (RPF) designation (required)
- Certified Forest Operations Compliance Inspector designation
- Have the ability to work independently with minimal supervision and in a team environment
- Possess excellent communication, interpersonal and negotiation skills
- Must be result driven and have the ability to bring forward solutions to overcome challenges
- Demonstrate a willingness to learn, a positive attitude and able to produce positive results with clients, contractors and government authorities.
- Have leadership skills and be motivated to produce high-quality deliverable products
- Be flexible and adaptable to a variety of work environments and schedules
