

## **Woodlands Superintendent, Ear Falls, Ontario**

When you join our team as a **Woodlands Superintendent**, reporting to the Woodlands Manager, you will be responsible for planning and supervision of road construction, road maintenance, harvesting, and log hauling operations in various locations across Northwestern Ontario.

### **What You'll Do**

- Support the Woodlands Manager in outlining and achieving the objectives for the Ear Falls Woodlands team.
- With your experience, you will supervise, mentor, and lead a team of Woodlands Supervisors.
- Coordinate and support forest operations, including road building, road maintenance, harvesting and log hauling.
- Ensure operations are being carried out safely, legally, and efficiently and adhering to all regulatory requirements (Annual Work Schedules, Annual Fire Plans, OH&S Act etc.)
- Assist in preparing and maintaining both short- and long-term operational plans and ensuring the full utilization of forest resources to the benefit of the Company.
- Prepare blocks for harvest (road and boundary layout, prework approval, mapping) and schedule work with respective contractors.
- Liaise with the MNR on day-to-day operational issues.
- Communicate and report weekly production levels and targets.
- Prepare incident investigations and follow up on incident report recommendations.
- Carry out Environmental and Safety inspections and develop and follow up on action plans resulting from those inspections.
- Support the Log Quality Program including providing measured data for quality control monitoring and contractor follow-up.

### **What You Offer**

- 10+ years' experience in harvesting and road construction-related operations.
- Education in forestry or forest management, or equivalent experience.
- Valid Ontario Driver's license.
- Familiar with forest harvest systems and road construction techniques, including bridge construction.
- Experience with supervising employees.
- Working knowledge of forestry regulations (Crown Forest Sustainability Act) and OH&S Act & Regulations.
- Proficiency in MS Excel, Word, and Outlook
- Strong communication, organizational and time management skills. Bilingual is an asset.
- Working knowledge of ArcGIS is considered an asset
- Excellent interpersonal skills, including the ability to negotiate and problem solve.
- Commitment to high safety and environmental standards.
- Good physical condition.

- Ability to work for extended periods outdoors, in a forested environment, and in various weather and field conditions.
- Ability to meet changing priorities in a fast-paced environment and meet deadlines.
